## POWER PLANT EXTENSION TO BE PROCEEDED WITH AT ONCE

(Special Council Meeting Accepts Tenders  
of Mr. T. Chesterman, and Work will  
Be Completed With All Despatch.)

Minutes of a special meeting of the Wainwright town council held in the council chamber on June 28th, 1923.

Members present, Mayor Gerow, Councillors Cork, Huntingford, Forster, Welch and Walton.

The secretary read the notice calling the meeting which was for the purpose of considering the tenders regarding the Electric Light Plant, and receiving report from Health, Park, and Cemetery committee in regard to scavenging operation.

The mayor opened tenders in order which was as follows—

J. Taylor	\$3,640.00
Rathbun and Cleverly	3,160.00
Thomas Chesterman	3,120.00
W. D. McKee	2,900.00

Cork-Walton: That this council resolve into a committee of the whole for the purpose of considering the tender on electric light plant—Carried.

The mayor appointed councillor Cork to the chair.

The committee on rising begged leave to report as follows: That having considered the tenders submitted for the extension and alterations to the electric light plant, recommended that the tenders of Mr. T. Chesterman for the sum of \$31,200 be accepted, and that the secretary-treasurer be instructed to draw up a contract governing the same, to be signed by the parties concerned.

Cork-Huntingford—That the report of the committee of the whole be accepted—Carried.

The committee on Health, Park and Cemetery reported recommending that the secretary notify all cesspool owners to have cesspools thoroughly cleaned so as to hold at least five tanks of sewage.

That the utility man build an out house on the town hall lot for the use of the occupants of the town hall during the summer months.

That the secretary notify the owners of the Empire cafe to discontinue dumping refuse and soil in the scrub back their premises.

Forster-Walton—That the report of the Health, Park and Cemetery committee be adopted—Carried.

Welch-Cork—That council do now adjourn—Carried.

The mayor accordingly declared adjournment.

## KEEP YOUR MILK COLD DURING THE SUMMER MONTHS

During the summer months the question of the temperature of the milk is all important.

The farmer may be very careful with his pails and cans, may wash his hands and keep his barn clean, and have all his money and his care wasted because he put up no ice last winter or uses spring water that is warmer than 55 degrees in his cooling vat.

Or exposure on hot cars and platforms may spoil everything.

Or the dealer may do everything the right and spoil everything by not using his delivery wagons.

Fifty Degrees or Lower

The milk should be delivered at a temperature of 50 degrees or lower. This can be done by the use of open bottom milk cans, using ice in the top box. On delivery the milk should go straight into the householder's ice box.

A Place for the Milk Bottle

Night and early morning deliveries should be made especially well because of the long exposure on the doorstep before the bottle finally gets into the ice box. A proper box into which the milk dealer can place the bottle when he delivers it on the porch is strongly advised as to keeping the milk should not stop with the milkman. Every body can be very careful and have everything go to waste because of the carelessness of the purchaser.

Why put up expensive barns on the farms, at expensive methods of sterilizing cans and bottles in the milk depot, and then have the good effect by exposure in the hot broiling morning sun on the porch?

And then, how about the ice box? The Ice Box

Suppose a case like this: A bottle of milk in a home where the milk can not be kept at 50 in the refrigerator.

### LOCAL NOTES

By the alterations in the train service at Wainwright Nos. 1 and 2 C.N.R. transcontinental trains have changed the times of arrival. No. 1 from the east is now due at 6:45 p.m. while No. 2 travelling east is due at 11:20 a.m. each day.

Can you afford to lose this crop? If not insure against hail. J. Welch x

We learn that on account of the Bank of Commerce at Viking having decided to close down, the Bank of Montreal is handling the business formerly done by the Commerce at that point.

The Imperial have a real wood yard now in connection with their lumber business; dry, round blocks or split in short lengths; prices right; phone 10x.

Mrs. J. F. Wilson and son left on Monday evening to join her husband and son Ray who are now located at Gimingham B. C. We wish them well in their new surroundings.

Mrs. J. Patterson of Greenshields is entertaining her sister from Ontario.

## HOUSE LAKE SCHOOL CLOSES WITH PICNIC

The mid-summer term of the House Lake school was closed on June 29th with a concert and picnic at Valleeau point, and the whole affair was much appreciated by all the scholars and some fifty of the neighbors and parents, who by bringing along baskets of delicacies such as only fond mother can prepare helped to increase the joy of the little ones. Ice-cream and candy was also on the bill of fare (this being well sampled by some of our older ones before schedule time, too). On account of a sudden downpour of rain the "cats" had to be taken out in the cottage, but despite the cramped condition, full justice was done to everything before the party dispersed to their homes.

Siddall fetches 'em down

### PROVINCIAL SUMMER SCHOOLS AS USUAL

Though the department of education adopted a new policy in connection with the summer school for teachers this year, in an effort to make the school self-supporting, by charging a fee for tuition and desiring those attending to pay their own expenses, the response has been very gratifying. It is expected that the total attendance will be about 300. School opened July 3rd.

General Science is to be one of the subjects in Grade IX for next year. Rural teachers who are likely to have pupils in this grade will find the summer school course an excellent preparation for teaching of this subject.

Up to the present time sufficient applications have not been received to justify the summer school in offering courses in First Aid, Home Nursing and Hygiene. If, however, the required number of applications are received by registration day, these courses will be offered.

Excellent residential accommodation for students is provided at a very reasonable figure on the University Campus.

What can be done?

Let them make an ordinary, cheap ice box large enough to hold the baby's milk. One costing less than a dollar and home made will keep milk colder than will the ordinary refrigerator.

## DON'T ADD TO OLD OIL; CHANGE IT INSTEAD

"When your oil pressure-gauge shows weakness of the pulse, don't think you can really help it by adding in a quart or two of fresh oil; caution the lubrication experts."

If you were trying to wash your hands a second time in the same bowl of water, you wouldn't expect a clean job just because you had poured in a couple of tumblers full of clean water.

It's the same with your motor. If it's in the good shape it should get fresh oil every six hundred miles, or thereabouts; but it ought to get no additional supply between.

One of the principal functions of a good oil is to stay—whole; not to break down; and therein lies the tremendous advantage of a straight-run, wholly distilled oil, free from "cylinder stock." Cylinder stock is good for certain uses; it is a very poor lubricant for a gasoline engine. Under the high temperatures found in a running motor any oil compounded with "cylinder stock" is pretty sure to suffer. The pure light oil in such a compound burns off, leaving only the sticky, gummy residue stock. It is this gummy residue which coats your cylinder walls, collects dust and sooty carbon and bakes into the hard flinty mass which we call carbon deposit. This has to be chipped or burned off, an expensive process.

You are going to burn some oil no matter what the grade you use. It is necessary for your oil to have the quality of clean burning, to leave a minimum residue and to resist decomposition under the extreme heat of combustion. That can best be had in a wholly distilled oil, one that you know is pure, such as Sunoco Motor Oil.

With a good oil of that sort, you will be sure of adequate lubrication at all times and under all reasonable engine temperatures. In cold weather there will be no praefrain present to stiffen your oil, make starting difficult, and consequent loss of lubrication. Pick out a good oil and stick to it. It may cost you a few cents more a month to buy a high quality oil, but it will save you many dollars a month in repairs; to say nothing of the increased satisfaction you will have from your car.

## PRIZES OFFERED FOR CROW SHOOT

The Northern Alberta Game and the Protective League is offering a number of prizes in a competition that will interest some of our local hunters. This League, which has its headquarters in Edmonton, and is forming branches in outside districts, is out in a determined effort to keep the crows down in numbers. It has been proved that these black "thieves" destroy an enormous amount of game birds—both in the eggs and by taking the young birds—and as their numbers have increased to a very great extent of late years, they are becoming a serious problem to those who are trying to keep the supply of game birds up to normal.

To induce hunters to shoot crows, the Protective League is offering a case of 500 shells to the one who turns in the greatest number of crows legs. The other prizes are, respectively, 300, 200, 150 and 100 shells to the shooters coming second, third, fourth and fifth. These are good prizes; the contest runs to August 31st, and with duck shooting only two months away, 500 or any number of shells will be a nice prize to win.

To the boy under sixteen who turns in the most crows' eggs and legs the league is offering a single barrel shotgun (12 gauge). But only crows eggs (or legs) can be taken as most other birds' eggs are protected by law.

### DOMINION DAY

The ties of love for our country  
Are linking the East and the West  
The North and the South, and all between  
In a land that is Heaven

Where hope in the nation, founded  
On deeds of the present and past,  
Shall blazon with undimmed splendor  
For as long as the earth shall last.

### MANY THANKS; AND AGAIN THANK YOU!

The Editor, on behalf of himself and the staff desires to express his great appreciation to all those who assisted in any way in the production of The Star during his absence in the Maritime provinces at the convention of the C.W.N.A.

It is only by such acts of mutual assistance that we are able to enjoy the full convention trips and at the same time uphold our determination to "never miss an issue."

## DOMINION DAY CELEBRATED BY LOCAL BASEBALL BOYS

(By A. M. Allen)

Four teams entered the tournament and the small crowd had some thrilling ball.

The first game called between Doty and Wainwright, and produced some exciting moments. This game showed without doubt that Wainwright has one of the best teams on this line at least of the hardest hitting teams. "N. Nelson started for Doty but had to be taken out of the box too much due to his bad pitching but lack of support, Dwight Elder pitched a dandy game for the locals, and was well supported. Glen Johnson again showed that he is a brainy player. Wainwright won the game 4 to 1. In his antics were most amusing and to crown it the run was scored. The locals noted out on the long end of a 10 to 2 score.

The second game featured a merry-go-round, and Irma took the short end of a 16 to 1 score. It was certainly Chaunin's day out, and good pitching combined with good support gave them this game. They had apparently secured a "battery" in from Edmonton which was evidently a good investment. Irma are, by no means, to be despised as an opponent but they must give their pitcher for better support if they are to win games.

The final was between the local team and Chaunin and was a heart breaking game for Wainwright. The two teams were most evenly matched as far as fielding and hitting were concerned but Wainwright really needs a good pitcher.

Chaunin started merry-go-round and secured 2 runs in the first innings and again, in the second innings, succeeded in getting in two more. This was more than Mel's crew could stand and they demonstrated that they were hitters by getting in four runs in the same innings.

Chaunin staged another rally and took the score to 7-4. Then disaster overtook us for Cascan overthrew the last base with two men down and opened the way for Chaunin to push in three more runs which brought the score to 10-4, this error was due to the coach wearing a first baseman's mitt and standing right on top of first base. At this stage Glen again came to the rescue and relieved Elder, who had relieved Cheetham, and shut out Chaunin for the last three innings. Wainwright came out of a slump and ran in three more runs which brought the score to 10-7 this proving to be final.

The game featured two home runs by Stuart, who played spectacular ball all through, and must have had a horse shoe in his mitt.

It would not be fitting to conclude without a remark about the umpire, Mr. A. Carson of Metislaw, who gave great satisfaction to both the players and the crowd. He is, without doubt, one of the best umpires ever seen on the local grounds.

In conclusion it is with regret that your correspondent has to report a very small crowd. It seems a shame that baseball does not get better support in this town than it does especially as Wainwright has the best team it has had for years. If the team is to be successful it must have support.

Stuart soaked it around twice

## THE EXAMINER'S WEEKLY REVIEW OF PROV. MARKETS

(Thursday June 28th, 1923)

### CATTLE

BEEF—Edmonton prices are fairly steady on choice beef, but most of the trading is in stockers. Choice heavy and light steers \$5.75 to \$5.85, with a top of \$6.50; good \$4.75 to \$5; medium \$4.40 to \$4.50; common down to \$3. Choice cows \$4.40 to \$4.50; good \$3.50 to \$4; medium \$2.50 to \$3.25; common \$2.00 to \$2.50; canners down to \$1.50; top heifers up to \$5. Calves unchanged with light veal at \$6; common calves \$2.50 to \$3. FEEDERS, STOCKERS—Demand improving but prices fairly steady with best feeders \$3.40 to \$4; common \$2.80 to \$3. Stock heifers \$2.40 to \$3.25; stock cows \$1.50 to \$2.50.

### HOGS

Edmonton hog prices have been advancing from \$8.50 last week end, they have come up to \$8.75, thick smooths.

### SHEEP

Sheep at Edmonton have been fairly scarce, but lambs are quoted at \$12.

### GRAIN

Markets getting weaker on all old crop. Conditions over prairie country very favorable to growing crop. Alberta acreage increased on oats and barley from previous reports. Ample moisture in all districts.

BUTTERFAT—All cream prices down 1c Wednesday to basis of 28c specials; spread between creameries eliminated. CREAMERY BUTTER—Cartons and prints down 1c to 1.34c; No. 2, 30c; No. 3, 28c; No. 4, 26c; No. 5, 24c; No. 6, 22c; No. 7, 20c; No. 8, 18c; No. 9, 16c; No. 10, 14c; No. 11, 12c; No. 12, 10c.

### POTATOES

Market very quiet; new alfalfa expected to be worth around \$11 on opening of season.

### HAY

Business very quiet; new alfalfa expected to be worth around \$11 on opening of season.

## JASPER PARK AS A NATIONAL ASSET

Jasper Park Lodge in the heart of the Canadian Rockies formed an ideal setting for the joint convention of the Alberta and B. C. Press Associations held June 7-9th. There midst the tall swaying pines and the snow capped mountains rising in the distance looking like mighty guardians, the press party sat in council for three days and discussed with other the problems that were mutual, just like the Indian tribes of years gone by, probably on the identical spot.

Pep and zest were justified into ladled minds and brains by inspiring talks and speeches and discussions led by men of national repute.

The proceedings were opened by an address of welcome by Col. Roger Parks, superintendent of the park.

An address was made by W. A. Buchanan (ex M.P.) of the Lethbridge Herald on "The Public and the Newspaper." G. H. Saults, Secretary of the Manitoba Press Association, spoke on "Co-operation Through Organization." M. L. Spencer, Dean of the School of Journalism of Washington University, Seattle, gave a splendid address on "The Small Town Editorial Column." Beside this address Dean Spencer was a great source of information to the editors. A banquet was held on Thursday evening at which a varied toast list—songs, and stunts were given—ending up with grand ball. Moving pictures of the

## M.D. NO. 422 DO NOT FAVOR SCHOOL MEDICAL INSPECTION

The following are the official minutes of a meeting of Gilt Edge M.D. No. 422, held on June 26th.

All councillors were present and minutes of previous meeting were adopted as read.

Moved by Councillor Traynor that Bylaw No. 25 under the Domestic Animals Act be read and passed a first time—Carried.

Moved by Councillor Perkins that Bylaw No. 25 be read and passed a second time—Carried.

Moved by Councillor Perkins that pound bodies be obtained for the use of municipal poundkeepers—Carried.

Moved by Councillor Traynor that Secretary be authorized to procure necessary branding irons for poundkeepers—Carried.

Moved by Councillor Church that Dr. Middleton, Wallace and McGregor be appointed as health officers for the municipality at an annual fee of \$25 each—Carried.

Moved by Councillor Perkins in respect to the matter of an inspecting nurse for the schools in this district, "My screen doors now, before the flies get started. We have strong doors and good value. Atlas Lbr. Co., phone 57."

Flyosan kills flies, bugs etc for sale at Wainwright Pharmacy.

## C.N.R. TO BUILD LINE INTO PEACE RIVER

The intention of the Canadian National Railways to build a line into the Peace River from the main line west of Edmonton, was announced by Sir Henry Thornton, president of the national railway. The line will probably be commenced next year, survey parties being in the field this survey.

### Internal Elevator for Edmonton

Preliminary estimates have been introduced in the commons at Ottawa, for the commencement of construction of an internal government grain elevator at Edmonton which it is expected will eventually cost in the neighborhood of one million dollars. This will greatly facilitate the establishment of the western route for grain shipments.

Elder took 'em in a pinch

## KEEN HUMAN INTEREST IN FOX SUPER-SPECIAL

"Perjury," the William Fox special with William Farnum which enjoyed a sensational run on a Broadway New York, theatre, will be at the Elite theatre Friday and Saturday next. During its run on the most famous entertainment thoroughfare in the world New York reviewers declared that no more gripping photodrama had been shown since the presentation of William Farnum in the screen version of Victor Hugo's "Les Misérables."

Robert Moore, the hero of "Perjury," like Jean Valjean of "Les Misérables," is a kindly and lovable man who, through a shocking combination of circumstances, is compelled to serve a long term in prison. It provides the famous Fox star with wonderful opportunities to display his well-known power of expressing human emotion and pathos. Those who have seen the photodrama declare it to be unsurpassed in intense human interest.

The production is elaborate—twenty-four separate interior sets including one huge set for the courtroom scene showing the trial of Robert on a murder charge, having been built in the Fox studios for the Farnum company in the picturing of "Perjury." Some of these show scenes of twenty years ago, while others are modern.

The acting of Farnum as an active, ambitious man of forty-five, happily married and the father of two lovely children, and as a pathetic, sweet-souled old man, faded by long imprisonment, is declared to be the most impressive and appealing of his remarkable career.

that the Secretary advise the department that, in the Council's opinion, there has been no direct benefit to the children from the inspections already made in the province, and that the parents do not carry out the instructions given; and that the appointment of such an inspector does not meet with the approval of this Council—Carried.

Moved by Councillor Perkins (in respect to the matter of the bonding company's claim of non-liability for shortage) that Secretary respectfully submit to the Department of Municipal Affairs, that as the Municipal Department selected our official auditor in 1921 and they arrange secretaries' bonds, and further that the bonding companies have our auditors statements of claim, that this Council is of the opinion that the bonding companies and our auditor should settle this matter as expeditiously as possible—Carried.

Moved by Councillor Bailey that this municipality appoint a weed inspector at a wage of \$4 per day and ten cents per mile for every mile necessarily travelled in connection with his duties, and that any ratepayer reporting weeds to weed inspector shall do so in writing—Carried.

Moved by Councillor Perkins that Mr. J. Hartman Mills be appointed weed inspector—Carried.

Moved by Councillor Ford that the matter of closed road allowance north of N. W. 36-44-4-4 be taken up with the G.T.P. and also with the Department of Public Works—Carried.

Moved by Councillor Perkins that the resolution of May 28th re Nurse Horn's hospital bill be rescinded—Carried.

Moved by Councillor Ford that survey fees and compensations for deviations be borne by the municipality as a whole—Motion lost (4 nays, 2 ayes).

Moved by Councillor Traynor, that sixty per cent of current taxes be appropriated for road work expenditures—Carried.

Moved by Councillor Wallace that the cost of the Adams grand jury be chased by the municipality for \$95 be borne equally by divisions five and six—Carried.

Moved by Councillor Bailey that 1/10s and accounts amounting to \$29.70 be paid—Carried.

On a motion by Councillor Ford the Council then adjourned to meet again at the secretary's office on July 24th.

## A Little Game of Cards at Sea

(By Mabel Herbert Urner)

"It's after eleven—we'll hardly have time for another rubber," declared Helen.

"Come to our stateroom," urged Mr. Dalmer, shuffling the cards. "We can play as late as we like down there."

"Thank you, not tonight," nudged Warren under the table. "I get a headache when I play too long."

"We'll have a game tomorrow," Warren drew out his wallet. "How does the score stand now?"

"At two cents a point that's twelve points," Mr. Dalmer ran his pencil down the line of figures.

"No, I'll take a turn on deck," Warren counted out the money.

"You'll win it back tomorrow—and more," laughed Mrs. Dalmer drawing her tulle scarf over her powdered shoulders.

"Let's have another drink," invited Mr. Dalmer as the lounge steward gathered up the empty glasses.

"No, I'll take a turn on deck," Warren pushed back his chair.

Out in the dark section of the deserted deck, Helen's repressed resentment found expression.

"Twelve dollars! Dear, why did you let them make it two cents?"

"Oh well, if that's what they're used to playing for," pausing to relight his cigar, "you can't be a piker."

"We needn't have played that last rubber. If we'd stopped, then you'd have lost only seven dollars."

"You're a hum story. An evening of good bridge on shipboard is worth twelve bucks. Pay more'n that for a couple seats at the opera—and be bored stiff."

"They'd suck luck with their dummies," taking his arm to keep up with his rapid strides. "He'd make it at most nothing—and every time she was long on that suit."

"Yes, we didn't stand much chance against that run of luck. In that last hand he made it hearts on only one ace and two small ones—but she plunked down the king, jack and three others. Jove, look at that point!"

The luminous crescent gliding from behind a cloud, laid a searchlight path across the black sea.

But Helen was too regretfully intent upon the loss of the twelve dollars to appreciate the witchery of the night.

"Ready to go down?" yawned Warren tossing his glowing cigar over the railing.

In the stateroom he addressed with the usual careless despatch. But Helen, still worrying over her loss, was brooding slow.

"They must have money," replacing her evening gown on its hanger in the wardrobe trunk. "Did you notice her diamonds? What business is her?"

"From Boston, that's all I know," Warren thrust his wallet and letter of credit under his pillow. "Just met him in the smoking room."

"I don't care for her—she's so artificial. Oh, look where you've put your coat. And I had it pressed just before we sailed," rescuing his dinner jacket that he had crammed into the rack over his bed.

"These yellow plums are great!" he was rummaging in a Bon-Voyage basket of fruit.

"Dear, don't eat any more tonight. All that dinner, and those sandwiches afterwards, and now fruit!"

"Now, I'm going to eat all I want on this trip," defiantly munching at another plum. "What in blazes?"

A lurch of the ship sent showering down upon him some magazines that Helen had tossed above the life preservers.

"I thought they'd be out of the way up there," hastily she gathered them up. "Oh, here's an article I wanted you to read—'Sharks on Ocean Liners.' About professional gamblers who make their living on these big boats."

"Huh, that's an old story. Don't worry, they won't get a chance to trim me. Never play cards with anybody I don't know. Where's my slippers?"

But you don't know the Dalmer's! Aren't they under your bed? You can't meet him this morning in the smoking room."

"Oh, Dalmer's all right. His make-up is a little heavy but he's a good fellow. I can spot a boulder a mile off. Where the Sam Hill are those slippers?"

"They must have been shoved back Peking under his bed with a coat hanger, she dislodged his slippers from behind a suitcase."

"That thing open?" Warren scowled up at the ventilator in the top of her cabin. "Blows right in my head."

Reluctantly Helen pulled the cord that closed the shaft. The porthole was open, but as always her greed for air was insatiable.

"Oh, I hope it's not going to be rough," at an ominous lurch.

"Rougher it is the better I sleep," as he slumped into bed. Then grimly: "If that youngster wakes me in the morning there'll be trouble!"

His shoes put out, the door bolted the curtain drawn back from the porthole over her berth. Helen finally in bed switched off the light.

She loved the nights on a steamer. Lying in a snug, warm berth, listening to the road of the sea always brought a luxurious sense of security.

But now, the twelve dollars, and the further possible losses tomorrow, shadowed her thoughts.

It would be useless to beg Warren not to pay. He would call her a "rotten sport" to want to back out because they had lost. Nor would he ask to lower the stakes.

Her troublesome thoughts were final succumbing to the lull of the waves when she was aroused by voices from the deck.

"Here's a couple of chairs. I want another cigarette before we go down. Tiresome evening. We earned the twelve."

The Dalmer's Helen lay rigid. A moment's silence, then the cracking of chairs as they settled beneath the porthole.

"Got another match? yes, that was said slow. We'll spend it tomorrow and make it five cents a point. He'll stand for that."

The next second, every nerve quivering, Helen was by Warren's berth, trying to arouse him from his stentorian slumber.

"Sh-sh, don't speak," she whispered just listen."

"What makes you think he has money?" came Mrs. Dalmer's querulous voice. "We may be wasting our time."

"Oh, he's good for four or five hundred. That's only chicken feed, but we're down pretty low. Not much doing on this boat. Lots of tightwads."

"Don't don't, they may hear you," whispered Helen to Warren as with a muttered oath, he started towards the porthole.

"There's that man in the de luxe suite. What's his name?"

"He's Carl, he has the coin, but he's a card. They won't play. Somebody must have tipped him off. We'd better stick to Carl. He's the egotistical, cock-sure kind—they're always easy marks."

"Well, we'll have to double on every hand. We can't make much at even five a point."

"Watch me handle him tomorrow. Thought we'd better go slow the first game. Now, don't forget the signals. Five hearts push your hairpin in on your left side—with three honors the right side. Your powder puff for spades. Left ear ring diamonds—right no trumps. You got me mixed on that tonight."

"You're always changing—no wonder I get mixed. We should keep the same signals."

"Yes, and have everybody on to us. Now, if you lost this trip we'll land in Paris without a sou. I've only thirty-seven dollars besides the twelve we won tonight. Wonder if Carl will stand for ten cents a point?"

"Sh-sh, don't speak," she whispered just listen."

"What makes you think he has money?" came Mrs. Dalmer's querulous voice. "We may be wasting our time."

"Oh, he's good for four or five hundred. That's only chicken feed, but we're down pretty low. Not much doing on this boat. Lots of tightwads."

"Don't don't, they may hear you," whispered Helen to Warren as with a muttered oath, he started towards the porthole.

"Watch me handle him tomorrow. Thought we'd better go slow the first game. Now, don't forget the signals. Five hearts push your hairpin in on your left side—with three honors the right side. Your powder puff for spades. Left ear ring diamonds—right no trumps. You got me mixed on that tonight."

"You're always changing—no wonder I get mixed. We should keep the same signals."

"Yes, and have everybody on to us. Now, if you lost this trip we'll land in Paris without a sou. I've only thirty-seven dollars besides the twelve we won tonight. Wonder if Carl will stand for ten cents a point?"

"Sh-sh, don't speak," she whispered just listen."

"What makes you think he has money?" came Mrs. Dalmer's querulous voice. "We may be wasting our time."

"Oh, he's good for four or five hundred. That's only chicken feed, but we're down pretty low. Not much doing on this boat. Lots of tightwads."

"Don't don't, they may hear you," whispered Helen to Warren as with a muttered oath, he started towards the porthole.

"There's that man in the de luxe suite. What's his name?"

"He's Carl, he has the coin, but he's a card. They won't play. Somebody must have tipped him off. We'd better stick to Carl. He's the egotistical, cock-sure kind—they're always easy marks."

"Well, we'll have to double on every hand. We can't make much at even five a point."

"Watch me handle him tomorrow. Thought we'd better go slow the first game. Now, don't forget the signals. Five hearts push your hairpin in on your left side—with three honors the right side. Your powder puff for spades. Left ear ring diamonds—right no trumps. You got me mixed on that tonight."

## POINTED PARS

A school teacher was annoyed by  
the continued mischievousness of one  
of her boys.

At last, she exclaimed in exaspera-  
tion: "I wish I could be your mother  
for one week."

"Very well, I will speak to father  
about it," replied the lad coolly.

Financier: "I'm afraid we couldn't  
lend you money without security."

Seedy Individual: "What security?"  
Financier: "Well, I should say hand-  
cuffs!"

"People care little how you get your  
money. They are interested in the  
way you spend it."

Nature is very beautiful if you can  
find a spot where nobody has had a  
picnic.

How do you and your wife get along  
together? a witness was asked.

Witness: "Simple enough, I just do  
as I am told and there is no further  
trouble."

WAINWRIGHT, ALBERTA JULY 4th, 1923

THE ROYAL GRAIN  
INQUIRY COMMISSION

For twenty years, more or less,  
there has been a continual protest  
from the farmers of Western Canada  
in regard to our present system of  
marketing grain. That protest has con-  
tinued ever since the adoption of the  
present elevator system. The farmers  
have protested against the elevator  
companies, the grain exchange, the  
railways, the exporters, and every  
other person who has anything to do  
with the marketing. We find no fault  
with these pro-its—human institu-  
tions are fallible. It may be the fault-  
finding was justified. The whole mark-  
eting system of grain in Western Canada  
has grown up and developed within  
the past few years. It is absurd to ex-  
pect it to be perfect, or even capable  
at all times of meeting the demands  
made upon it.

It may be true that this system is  
not the best that can be devised. Some  
of the ablest men in Canada have con-  
demned it. Many of the keenest minds  
have praised it, but the point we want  
to make now is that the government  
has appointed a commission to in-  
vestigate the whole business, and it is  
the duty of farmers and all others in-  
terested to state their problems before  
this commission as clearly as possible,  
with the one idea of helping to devise  
means of improvement.

The commission began at Edmonton  
on June 25. It goes to Stettler on the  
27th, Calgary on the 28th, Vulcan  
July 4th, Cardston July 6th, Leth-  
bridge on the 9th, Claresholm on the  
11th, and Alasko on the 13th. These  
meetings cover the province in a broad  
and general way. All those who lay  
claim to special knowledge of market-  
eting problems should attend these meet-  
ings prepared to give evidence that  
will help to solve the particular prob-  
lem in hand.

Any commission is composed of  
human beings trying, sometimes vainly,  
to reach the light. Their ability to  
solve the problems will depend largely  
on the amount of help they get from  
practical men who have had experience  
in the business of producing and mar-  
keting the Canadian grain crop. If you  
are in a position to give assistance  
of this kind, make it a point to appear  
before the commission. If you have  
any special information you would  
like the commission to receive, send it  
to the Secretary, Royal Grain Inquiry  
Commission Calgary.

ALBERTA  
WEATHER

So far, Alberta has escaped the cli-  
matic disasters which have befallen  
other parts of the world; this being  
especially true of Northern Alberta.  
Saskatchewan has just been visited with  
a cyclone which ran through the cen-  
tral part creating considerable havoc,  
while all the other provinces seem to  
have a daily tale of some trouble or  
other from weather conditions.  
Climatically, Alberta is in a class  
by herself, even though there are times  
when extremes seem to govern. All  
this district requires just now, to make  
everybody happy, is just a little more  
rain.

THE SENATE  
APPOINTMENT

An appointment to the Senate of  
Canada is about to be made. The  
death of Senator Forget opened the  
way for another Alberta man and the  
selection is now being discussed.  
On all sides, the name of the Hon.  
Frank Oliver, is being acclaimed as  
the one man in Alberta most worthy  
of the honor. The Star joins most  
heartily in these recommendations of  
Mr. Oliver.

There is no man in Western Canada  
today who even approaches Mr. Oliver  
in knowledge of public affairs not only  
in the West but throughout the Dom-  
inion itself. His long service on the  
public bench in the pioneer days of  
this North-West Territory was suc-  
ceeded by exceedingly capable work as

Minister of the Interior in the Laurier  
Government. He has a wonderful  
grasp of public affairs; is an energetic  
and forceful debater; is absolutely  
fearless in his expression of opinion  
and is in every possible way the one  
and only man in Alberta whose claims  
for the vacant senatorship cannot pos-  
sibly be questioned.

The West needs Frank Oliver at  
Ottawa. He should be there as a  
member of the House of Commons,  
not, failing that, the Senate will do. If  
the Mackenzie King Government wants  
to reform the Senate, a rattling good  
start could be made by appointing  
Frank Oliver thereto.

It is stated that the Senatorship  
should be given to a French-Canadian  
— custom and precedent governing the  
appointment. Some names of French-  
Canadians are given as possible ap-  
pointees—all good men—but all of the  
usual senatorial capacity—all but not a  
man of them in Mr. Oliver's class. If  
custom and precedent get in the way  
of a good appointment, then so much  
the worse for custom and precedent.

With one exception, the present Al-  
berta representation in the Senate, is  
about as punk as could be imagined.  
(The exception is General Griesbach.)  
No other province in the whole broad  
Dominion has such a perfectly useless  
lay-out of Senators, (witness the Hon.  
Senator Bill Hartney), and Alberta  
thereof needs and demands better  
representation—Hon. Frank Oliver is  
the man.

Buffalo Have  
Hard Winter

Many of the last remaining herd  
of wild buffalo, who range westward  
of the Slave river died off last winter,  
say trappers from the lower reaches  
of the Peace river country. Several of  
the men who string their traps through  
the big range arrived in the city on  
Friday's train and report that the last  
remnant of the Lords of the Plains  
made a very hard winter.

Unlike other wild animals the buffalo  
do not paw through the snow to get  
at the grasses; they simply burrow  
down with their noses, and as the  
snow this winter on the buffalo range  
was over four feet deep the animals  
were hard put to it to obtain enough  
 fodder.

## Buffalo Thin

The trappers saw a number of the  
animals while out on their lines those  
run across being extremely thin, while  
a number of dead ones were met with.  
The heavy snowfall came before the  
sloughs and lakes were frozen over,  
with the result that when the bison at-  
tempted to cross the wet country they  
plunged through the snow and thin ice  
and their trails could be seen where  
they had floundered - and zig-zagged in  
the endeavor to free themselves.

Not as many were seen this winter  
as usual for the reason that the severe  
weather forced them to change their  
habits. Usually the bison remain in the  
vicinity of the sloughs and muskies  
where they dig down for the grass, but  
by reason of the deep snow they were  
forced to leave their usual stamping  
grounds, and take to the timber where  
they sought the sheltered spots under  
the trees. There the snow was not so  
deep and they stood a better chance of  
obtaining some feed.

## Eleven Rangers

There are eleven rangers employed  
in looking after the bison, and during  
the winter these men, travelled  
throughout the southern and northern  
ranges with dog teams and snow-  
shoes, so that the animals were well  
protected from any marauders, two or  
four legged.

Considerable dissatisfaction exists in  
the ranks of the trappers who hunt  
the buffalo range, in respect to the  
closing of this area to the white men.  
Many of the trappers have been there  
for a number of years, and have spent  
much time cutting lines, building, chis-  
els and so on. None of the men were  
notified that the range was closed to  
them prior to bringing their furs out  
of market. Their equipment is still six  
hundred miles to the north, and they  
feel distinctly hostile regarding this  
restriction.

It is felt that if the Indians are al-  
lowed the sole use of this territory  
that it will be the cause of consid-  
erable trouble, and at any rate those  
who were settled in the Wood Buffalo park  
prior to its being made such feel that  
they possess squatters' rights and in-  
tend to maintain them.

## Here and There

St. John, N.B.—J. M. Woodman,  
general superintendent of the C. P. R.,  
New Brunswick district, an-  
nounced that the only large expan-  
sion in his district during the year  
will be for ballasting and bridges.  
Mr. Woodman is expected to be in  
Wainwright, where he was on a business trip.

Edmonton.—The northern railway  
extensions, which under the recently  
announced agreement with the Union  
Bank will be completed with next  
spring, are to be built by the Cana-  
dian Pacific Railway Construction  
Department. One of the conditions  
of the agreement between the prov-  
incial government and the bank in-  
terests is that the C. P. R. do the  
government, which had originally  
intended building the roads under its  
own railway department.

Port Arthur.—Additional track-  
age accommodation will be con-  
structed by the Canadian Pacific  
Railway in its Port Arthur yards  
this coming summer, especially at  
Current River, to take care of the  
increasing grain trade to be created  
by the elevators there. Other work  
will also be done locally and at Fort  
William considerable will be under-  
taken, including the replacement of  
the two large freight sheds destroyed  
recently by fire, with buildings of an  
improved and fireproof type.

Carlton Place, Ont.—On the occa-  
sion of the retirement of Assistant  
Jelly and section foreman J. Mill-  
kin from the C. P. R. Company's  
service, the fellow employees and  
their wives gathered at the town  
hall, Saturday, and a social evening  
was spent. The tables were laden  
with the very best that a caterer  
from Ottawa could provide, and  
about 150 guests were present from  
all classes of the company's service.

St. John, N.B.—C. E. McPherson,  
Assistant Passenger Traffic Man-  
ager of the Canadian Pacific Rail-  
way, the fellow employees and  
their wives gathered at the town  
hall, Saturday, and a social evening  
was spent. The tables were laden  
with the very best that a caterer  
from Ottawa could provide, and  
about 150 guests were present from  
all classes of the company's service.

Yorlton.—Another milestone in  
the history of railway development  
in Yorlton and district was marked  
when the members of the clerical  
staff of the C. P. R. freight depart-  
ment took up their quarters in the  
offices of the new freight shed.  
This building is 240 feet long and  
40 feet wide, and provides accommo-  
dation for eighteen cars of freight.  
The building and track alterations  
involved an expenditure of nearly  
\$70,000.

Winnipeg.—Great interest in the  
increasing of facilities for the stor-  
ing and handling of grain at the  
head of the lakes was reported by  
Charles Murphy, general manager  
of the Canadian Pacific Railway,  
who returned from Fort William.  
Mr. Murphy stated there would be  
an enlargement of at least 4,000-  
000 bushels in the storage capacity  
during the coming summer, and it  
was hoped the new equipment would  
be in working order in time to take  
care of the next crop. Two priv-  
ately owned elevators were to be  
erected and the buildings of the  
Saskatchewan co-operative company  
were to be enlarged he stated. One  
construction outfit was already on  
the ground and construction would  
be pushed as soon as weather conditions  
permitted.

## Secretarial Duties

The farmer decided to give special  
attention to the development of his  
poultry yard, and undertook the work  
carefully and systematically. His  
servant, who had been with him a  
number of years, was instructed,  
among other things, to write on each  
egg the date it was laid and the breed  
of the hen. After a month the man  
resigned.

"I don't understand," declared the  
farmer "Why should you want to  
leave?"  
"I've had enough," replied the man.

Men who make this test  
Find quicker, easier shaving

We want you to test a shaving cream which, millions  
of men will tell you, gives quicker, easier shaves.  
It costs us 18 months' time—130 experiments—to  
perfect it.  
But the result was a cream in 5 distinct ways better:  
(1) softens the toughest beard in one minute—without  
rubbing in.  
Multiples itself 250 times in rich lather.

Father will last 10 minutes on the face.  
Strong bubbles hold hairs erect—for easier cutting.  
Skin is left soft and soothed by lotion-like effect of  
palm and olive oils.  
If PALMOLIVE SHAVING CREAM does all this  
you will want to know it. If it doesn't—well, we are  
the losers. Mail coupon for free tube today.

### Canned Goods Standardized

Housekeepers run practically no risk of getting a poor quality of canned fruits or vegetables if they will be careful to order by quality grade. All canned goods put up in the larger factories must conform to legal standards, and these are shown on the label of the can. The system of standardizing canned fruits and vegetables is explained in the May-June number of the Agricultural Gazette by C. S. McGilivray, the Chief Canning Inspector of the Department of Agriculture at Ottawa.

The four legal standards of quality for fruits and vegetables are—"Fancy Quality," "Choice Quality," "Standard Quality" and "Second Quality."

In addition to general standards for vegetables, specific grades have been established for canned peas. These are as follows: Size No. 1; Size No. 2; Size No. 3; and Size No. 4. The size is determined by the opening in the sieve through which the green peas will pass.

Canned fruits are graded for quality and syrup. In grading for syrup, the terms, "Heavy Syrup," "Light Syrup," and "Without Syrup" are employed. If the packer so desires, he may substitute the words "Packed in Syrup," "No Sugar," or "Fruit in Syrup" (stating the percentage of sugar in the syrup).

The terms denoting quality and grade must appear upon the main portion of the label in plain type of a size not less than 3/16 of an inch in height. Thus, in the case of peas, the label must indicate the quality and size of the peas in the can, thus—"Fancy Quality, Size No. 1."

J. W. STUART,  
Proprietor

Quality, Size No. 1. In the case of fruit, it must indicate the quality, of the article as well as the consistency of the syrup as far as sugar content is concerned, thus—"Fancy Quality—Heavy Syrup."

The declaration of net weight on certain sizes of containers is not required, as these sizes have been standardized. These sizes are known as size 1's, 1 1/2's, 2's, 2 1/2's, 3's and 10's. The minimum net weight of both liquid and solids as packed is defined for each of these sizes. Sizes not standardized must show on the label the net weight and the drained weight.

### Hail Storms and Hail Insurance

To people of the present day almost as much as 40 those of ancient times hail and hailstorms have always remained more or less a mystery. Reasons for it have been advanced that were not reasonable, and explanations have been given that did not explain. Douglas Archibald in his book "The Story of the Atmosphere" gives an account of it, that, whether it is entirely scientific or not is at least plausible. He says hail, unlike the delicate snow crystals, is frozen water-drops. Its frequent association with thunderstorms led to the belief that it was caused in some way by electricity. This is, however, found to be untenable in the searchlight of modern science, which shows that electricity is mostly an effect, not a cause of such mechanical disturbances. It is believed, that in such storms the rain-drops formed in one part of a storm are carried upwards by powerful ascending currents into higher regions of the atmosphere where they are solidified by the excessive cold, and being carried over by the overfall which takes place near the top, fall down until they are redrawn into the interior of the storm and again whirled up aloft. Receiving alternate meltings and freezings, and growing larger with each circuit they make in the atmospheric churning, they are finally thrown out on either side of the storm centre.

A hailstorm may last no longer than ten minutes, but in that short time thousands of acres of waving grain may be turned into a dreary waste of tangled, broken and useless straw; the whole season's work of the farmer and his men entirely gone, and the crop on which he depended to meet his financial obligations absolutely destroyed.

Experience has shown that hail is liable to occur in almost every part of the North American continent, and especially in the central and western states and the western provinces. This explains why in this territory such large organizations have been built up carrying on the business of hail insurance, that has become so important a factor in the economic development of the country. The farmer can do nothing to prevent hailstorms; nothing can be done to protect his crop when a hailstorm does come. The only thing he can do is to insure his crop.

Since Alberta was formed into a Province in 1905, the various organizations carrying on the business of hail insurance have paid out over \$12,000,000 in losses to the farmers of the Province. Their records show that no part of the Province is free from hail, and every farmer, no matter where he lives, may expect to receive damage by hail at some time. Although the year 1921 was a notable exception, hail insurance records also go to show that generally there is more hail when there is plenty of rain, as the present year appears to promise.

Hail insurance is a contract by which the farmer on the one hand, a premium, relieves himself of the risk of loss and devolves that risk upon some other person or corporation. The only time that hail insurance is not necessary is when the farmer is in such a position that he can afford to lose his crop without materially affecting his plans. Everything points to a good crop this year. It is for every farmer to decide whether he will run the risk of loss of that crop or whether by taking out insurance he will relieve himself of that risk, and make his financial position that much stronger.

### POINTED PARS

When the train drew into the station of a certain American town, all the windows open to catch a breath of air, an innocent looking man appeared around the corner of the station, carrying a basket on his arm. Hurrying to the window of a smoking compartment, he exhibited a black quart bottle which he had taken from the basket, and with a knowing wink said:—  
"Any gent want a bottle of nice cold tea?"

We sold every bottle, but concluded each sale with, "Better wait till the train has pulled out before you take a drink; you know, for I don't want any trouble."

The train pulled out, and the man was making off when an observant bystander asked him why he had requested the purchasers to wait until the train had started before taking a drink.

"Because," he said, with a shy wink, "them bottles all contained ice-cold tea."

### New Gloss and Softness Comes from this Shampoo

Try the shampoo which is giving new beauty to thousands of women's hair! All hair specialists agree that hair cannot be beautiful if it is left dry and brittle by shampooing. They tell you that the olive oil shampoo is the sure way to have clean hair—without leaving it dull and colorless.

Now try the finest of olive oil shampoos at home—economically. In PALMOLIVE SHAMPOO you have olive oil in its most perfect form for the hair. Women by the tens of thousands are attaining new hair beauty by its use.

### PUBLIC NOTICE

Public notice is hereby given that there has been introduced in the Court of Gilt Edge Municipal District No. 422 a By-law of which the following is a short synopsis:—  
Respecting the prohibition of Animals from running at large. Made under the Domestic Animals Act (Municipalities).

Domestic animals shall be prohibited from running at large on unfenced land other than land owned by the actual owner of the animals, in accordance with the following:—Horses, asses, mules, cattle, geese, goats, sheep and pigs, prohibited from running at large from FIRST of January to THIRTY-FIRST of December in each and every year in whole of Municipality.

Notwithstanding above, any Resident may allow a total of FIFTY horses or cattle or horses and cattle to be at large, for every ONE HUNDRED and SIXTY acres of land owned by himself.

A copy of above may be seen in each of the following places:—Edgerton Post Office; Aspen School N. Government road opposite Sec. 1-45-5; Heath P.O.; Heath School; Trailgar School N. Greenhills P.O.; U.F.A. rooms, Wainwright; Orange Hall; Mayfield School; Gilt Edge P.O.; E. Dahl's corner; Hope Valley P.O.; Rosedale Hall; and Office of Secretary-Treasurer.

Unless within THIRTY days from the publication of this notice at least FORTY resident electors petition the Council to submit by-law to the vote of the resident electors the Council will proceed to pass the same.

Dated at Wainwright this fourth day of July, A. D. 1923

Sec.-Treas.

### THE POWER OF SUGGESTION

A new device for saving passengers trouble has been adopted by the Dining-Car Service of the Canadian National Railways. Throughout the coaches on all trains to which Dining & Cafe cars are attached, little doggers are now distributed before each meal, with several suggestions for a suitable combination of dishes. These doggers are printed in both English and French. This gives the patron of the Dining-Car a little time to decide upon what he will order later, and eliminates the tiresome necessity of studying a large menu-card. If the traveller is accustomed to set a limit of price upon his meal there is no need whatever to exceed it. The prices for a complete menu for breakfast, Dinner and Supper are most moderate, ranging from 35 cents to \$1.25. Having his choice according to pocket-book and appetite, upon entering the Dining-Car, the traveller will find himself served as quickly and satisfactorily as he would be in any well-appointed home.

A newspaper was considered the best source of information and then the woman's cub was instituted.

Atlas Lumber Company Ltd.

## Canada Confident of the Future

CANADA is endeavoring to regain her after-the-war stride in the midst of many difficulties, debt, deflation and depression being some of them.

Quack remedies and academic theories beset her path on every side. Some suggest that our debt worries can best be eased by going further into debt. Others preach blue ruin, decry their own country and indulge in mischievous propaganda generally, while still others look for a new social order or some miraculous sign to indicate a better coming day—all this in apparent forgetfulness of the fact that just as there was no royal road to win the war, there is now no royal road to pay for it or regain our former buoyancy, vigor and confidence.

Some are leaving Canada hoping to escape taxation, only to find there is no escape anywhere. In seeking for easy remedies too many of us overlook the fact that the greatest remedy is honest, hard work faithfully and intelligently performed, accompanied by old-fashioned thrift.

It takes time, it takes patience, it takes grit. But every Canadian knows in his heart that Canada is coming through all right.

### Our Experience Proves It

Look back over the path Canada has trod. The French Colonists, cut off from civilization by 3,000 miles of sea, faced a continent—a wilderness—without the aid of

even a blazed trail. They had to fight savages, frosts, scurvy, loneliness and starvation.

The United Empire Loyalists subdued an unbroken forest in one generation, growing their first wheat amid the stumps and snags of the new clearing.

The Selkirk settlers came to Manitoba when the prairie was a buffalo pasture, and grew wheat where none had grown before and where those who knew the country best at that time said wheat would never grow. Today the Canadian prairies grow the finest wheat in the world.

In proportion to population Canada stands to-day among the wealthiest nations in the world, with savings on deposit per family of \$800. Canada's foreign trade per head of population stands amongst the highest of the commercial nations, being \$192 per capita in 1922-23, as compared with \$135 in 1913-14, the "peak" year before the war.

### New Opportunities for Canada

In Canada, although prices in the world markets fell below war level, our farmers reaped last autumn the largest grain crop in Canadian history, and Canada became the world's largest exporter of wheat, thus in large measure making up for lower prices.

Last year, Great Britain, after an agitation extending over thirty years, removed the embargo on Canadian cattle, and a profitable and practically unlimited trade is opening up for Canadian stockers and feeders.

"The 20th Century belongs to Canada"—if Canadians keep faith.

The next article will suggest practical opportunities for profit making on our Canadian farms.

## Have Faith in Canada

Authorized for publication by the  
Dominion Department of Agriculture  
W. H. MOTHERWELL, Minister, Dr. J. R. GIBBARD, Deputy Minister.

## Dead!

"Dead" oil is damaging thousands of cars every day. Maybe it's damaging yours. You think not, of course. You wouldn't have it if you knew. But most oils do become dead before you know it.

## SUNOCO THE DISTILLED OIL

Is different. It isn't compounded of light oil and "cylinder stock." It's such oils that quickly break down and go dead.

Sunoco has a longer lubricating life. It's the only oil of six types, each of which is wholly distilled. It's pure lubrication. It lasts longer and makes your car last longer.

Ask your dealer or write us for booklet, "What's Happening Inside Your Motor?"

## Jasper Park a National Asset

(continued from page 1)

**IMPORTANT RESOLUTION**  
Discussion of the liquor referendum ballot featured the proceedings Thursday by the Alberta pressmen. Editors from all over the province reported a wide divergence of opinions in their respective constituencies, as to the real significance of certain questions. Conflicting views were expressed by the editors themselves, and there was general agreement that much confusion and an erroneous view of the election's position could only be avoided by an official statement clearing up the situation.

**RESOLUTION ADOPTED**  
Whereas this annual convention of the Alberta Press Association is persuaded that there is a sincere and widespread difference of opinion throughout the province as to the real effect of certain of the questions on the ballot of the forthcoming liquor referendum, and that this is bound to cause confusion and operate against a true expression of opinion, be it resolved that the government of Alberta be respectfully requested to issue an official statement of its interpretation of the effect of each question on the ballot paper and in connection with each question a clear explanation of the kind of legislation it proposes to introduce in the legislature in the event of such question being carried.

Officers elected: Immediate past president, W. J. Huntington, Wainwright star; President, John McKenzie Strathmore Standard; 1st Vice president, John Torrance, Lethbridge Herald; 2nd Vice president, L. D. Albertson, Chas. Chronicle; Secretary, L. Nesbitt, Bassano Mail.

Executive: John Imrie, Edmonton Journal; E. Stone, Redcliffe Review; George Gordon, Ponoka Herald; Mrs. Annie Derrett, Pincher Creek Echo; G. C. Duncan, Drumheller Mail.

**PRESERVING THE PARK**

In the important task of preserving Jasper Park as a great holiday paradise for the people of Canada, rendering it accessible for holiday makers and safe for the wild creatures who have made it their home from time immemorial, providing such facilities as roads, trails, hotels, camping sites and other contributions to the well-being of tourists and visitors, each project completed though it may seem small in itself, and especially in relation to 4,400 square miles, may be climbing of another summit in a mountain range; it is something accomplished, something done towards the completion of a great task which may well occupy years of endeavour but nevertheless is well worth doing.

**JASPER PARK LODGES**

The Canadian National Railway close the Californian word "Lodge" for their resort at Jasper Park, Canada's great national playground. The friendly giant of the old English hunting lantern, which has been adopted as the official symbol at Jasper Park Lodge, beams forth a promise of old world peace, with a suggestion in its modern rays of new-world comfort, rest and jollity, as it greets the wayfarer at the station and lights his way to the Lodge three miles beyond. It shines a cheery welcome upon the main lodge itself from each of the smaller buildings, as it illuminates distinguishing letter upon the door of each temporary abode.

Jasper Park is a great untamed wilderness of more than 4,400 square miles of natural scenic beauty, which has been set aside by the government as a permanent forest and game preserve and linked to civilization and made accessible to nature-loving humans by the transcontinental line of the Canadian National Railways. Its permanent population consists chiefly of thousands of big horn mountain sheep and mountain goats; of herds of caribou; of hundreds of bear, cinnamon, black and brown; of moose, elk, beaver, otter, marten, deer, of birds over seventy different species.

Last year the Canadian National Railways inaugurated series of Lodges three miles from Jasper station which proved so popular to visitors to Jasper National Park that increased accommodation for 1923 became imperative. The enlarged capacity provides for 250 guests and includes a Main Lodge, containing a large lounge room, dining room and ball room, billiard room, barber shop, shower baths, and ten bedrooms, all connected with private veranda at the station and lights his way to the Lodge three miles beyond. It shines a cheery welcome upon the main lodge itself from each of the smaller buildings, as it illuminates distinguishing letter upon the door of each temporary abode.

**TOWN OF JASPER**

Jasper, the station at which tourists

destrain, is charmingly situated on a plateau at the base of Pyramid Mountain and close to where the Miette River forms a junction with the Athabasca. As a convenient centre from which tourists may embark upon major horseback, or hiking trips to various points of interest within or beyond the confines of Jasper National Park the Lodge occupies an ideal situation. The Park's main artery—an excellent motor road—lies to the very door of the Lodge. Where motors, sure-footed hikers and experienced guides are ways available for the conducting of tourists to points of interest either near at hand or distant. Outfits and guides are also here procurable for those desiring to embark on big game hunting ventures beyond the confines of the Park. Riding is the most popular pastime, while for those who enjoy boating and canoeing, facilities for indulging in either pastime on Lac Beauvert are provided. A golf course is under construction, also tennis courts. For the convenience of tourists from United States, a Canada Customs Officer is stationed at Jasper during the season to facilitate the clearance of tourists' luggage etc., from United States points.

**LAC BEAUVERT**

The Lodge has been fortunate in its situation for it commands a wonderful view in all directions. Lac Beauvert—as its name indicates—is a beautiful vivid green, its waters so transparent that a ten cent piece lying in 20 feet of water can be plainly seen. To the south more than 15 miles away but apparently much nearer lies the wonderful snow-capped head of Mt. Edith Cavell, the magnificent mountains named by the Canadian Government in memory of the English nurse who suffered martyrdom at the hands of the Germans in Belgium in 1915 to the northwest across Athabasca valley, rises Mt. Pyramid (9,075 ft.) a beautifully coloured mountain of soft rose and madder, deepening into mauve to the east rising from the Colin range is old Roche Bonhomme with its recumbent figure gazing skyward like tree-trunk of a buried kind. Other summits near at hand are Mt. Kerskell (9,700 ft.) and Tekarra (8,703 ft.) while the galaxy of great peaks to be seen along both sides of the valley present an ever changing and beautiful panorama.

**A NATIONAL ASSET**

Thus Jasper Park can truly be said to be a national asset with its rugged vastness, lofty mountains, beautiful lakes, delightful drives, rustic accommodations, a place where the glory and majesty of nature seem to point out to man the mighty works of Providence.

**Safety First**

The mother-in-law of a village in France became ill, and presently fell into a trance, which deceived even her doctor. She was pronounced dead, and duly prepared for burial.

Following local custom, the body was wrapped in a sheet, to be borne to the burial place on the shoulders of four men chosen from the neighborhood.

The procession followed a narrow path leading across the fields to the cemetery. At a turning a thorn tree stood as close that one of the thorns tore through the sheet and lacerated the woman's flesh. The blood flowed from the wound, and suddenly she awoke to consciousness.

Fourteen years elapsed before the good woman actually came to her death bed. On this occasion the ceremony was repeated. And now, as the bearers of the body approached the turn of the path, the son-in-law called to them: "Look out for the thorn tree, friends!"

**SUBSCRIBE FOR THE STAR**

**MORE MOISTURE  
THAN WEST HAS  
KNOWN FOR YEARS**

(continued from page 2)

percentage reported is very small indeed. Heavy rains have been a pretty effective check on both cutworms and grasshoppers and where the latter are numerous every correspondent reports poisoning gangs active and the situation in good control.

Fully 95 per cent. of coarse grains are seeded and, setting the increases against the decreases and adding the number of points where no change of acreage has taken place, it would seem that there is little if any change of acreage of either oats or barley, which is somewhat of a surprise, here, which is probably accounted for by the heavy increase in acreage of fodder crops such as corn, sweet clover, alfalfa and sunflowers. Acreage in flax is surprisingly small viewed in the light of the attractive prices which prevail and the general world shortage of this seed. The explanation is that seed was excessively high and also hard to obtain. The fact remains that the acreage in flax is probably quite as small if not smaller than that of 1922, as nearly all the points heard from indicate that all flax that will be needed this year is already in the ground.

Winter rye is on the whole a spotted crop; in fact, it is rather like the

famous little girl of nursery fame. "With the curl in the middle of her forehead." The patchy condition is due mainly to water on the land in the spring in Manitoba and Saskatchewan and to excessive dryness in Alberta last fall. There will be a lot of good rye, the crop as a whole being fully headed, but the total yield will hardly be in proportion to the acreage seeded. With regard to the height of wheat, there is much variation in districts, while as to provinces, Alberta's average will be about 8, possibly 10 inches; Saskatchewan around 5, and Manitoba 6 to 8 inches.

## Here and There

Canada's export trade grew \$174,000,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes the management of the company's passenger business on both the Atlantic and Pacific oceans.

Fire insurance companies found 1922 the most disastrous year for more than 20 years. The rate of losses to premiums was 38.64 per cent, British companies suffered most severely, their losses to premiums being 71.48 per cent, mainly due to the Northern Ontario fire.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Tremblant and Abitibi. Gold was discovered in these two counties early in 1922, and a rush of prospectors began in March of that year. In October, 900 claims were staked comprising 50,000 acres of land, and to date about 90,000 acres have been staked.

In the last fiscal year, Canada imported 1,368,000 pounds of butter from the United States, 297,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total export of Canadian butter was 8,430,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will operate between Montreal and Vancouver, commencing May 20th, has been cut down one hour. Considering the all steel equipment and luxurious appointments and its regular daily on time performance, this is the finest long distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. Low cost of construction and maintenance will ensure that the bungalow camps will be rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call—the Orient and the Canadian Pacific Steamships Limited, by omitting Manila as a port of call between Shanghai and Hong Kong, will bring the latter port four days nearer to Canada, the United States and Europe. This makes possible a through service from London, England, via Canadian Pacific Atlantic Express to Quebec and rail to Vancouver and via Canadian Pacific Expresses to Hong Kong in 26 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,435,824 pieces of baggage as compared with 5,782,874 for the previous year. Of this amount 5,175,203 pieces were passengers' baggage which compared with 5,430,455 for the previous twelve months. 9,097 bicycles were handled, 19,338 dogs travelled as baggage and 23,988 baby carriages were moved. There was also a considerable increase in the movement of milk. In 1922 the Company moved 1,628,707 cans as against 1,014,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up over night" is that of Climax, the end of steel on the Connaught branch of the Canadian Pacific Railway. All that there was of the quarter section on February 19th, the day on which the site of the new town was finally settled, was a "homestead" shack, and a small barn. When the steel was laid in Climax on March 15th there was a restaurant, one rooming house, over a score of dwellings, two blacksmith's shops, a drug store, general furnishing store, a big general store, pool room and barber shop. The new town is situated in four large flat washcans in which nearly 100,000 bushels of grain were stored, and a butcher shop. The new town is situated in Lone Tree R.M. number 18, about 80 miles south of Shaunavon.

## PRESENCE OF MIND

Pat and Mike were working on a new building. Pat was laying bricks and Mike was carrying the load. Mike had just come up to the fourth floor when the whistle blew. His lunch was on the ground.

"I hate to walk down after it," he said. "Take hold of the rope," said Pat, and let him down half way and then let go of the rope. Mike landed in the mortar bed not much hurt but terribly scared.

"And why did you drop the rope?" he demanded. "I thought it was going to break," said Pat, "and I had the presence of mind to let go."

In a square foot of honeycomb there are 9999 cells.

## Reports on Canada's Crops

At frequent intervals throughout the season the Bank of Montreal issues reports on the progress of the crops in Canada. These reports, telegraphed to headquarters from the Managers of the Bank's 600 Branches, cover every Province and form a reliable index of crop conditions.

The reports are furnished free. Upon request at any Branch of the Bank your name will be placed on our mailing list.

## Interesting Local Notes

Bill Stuart is advertising a sale of first-class horses and cattle on Wednesday next, July 11th. This stock is the property of Mr. Frank Dixon of Buffalo View, and will be sold on the farm of Mr. Fred Church so as to be more convenient for buyers. With prospects of a good crop prices should suit all parties.

The Rev. G. Pybus, who arrived in town last week commenced his duties as pastor of Grace Methodist church on Sunday last. We bid him welcome.

Mrs. H. V. Fieldhouse has had the company of her mother for a few days' visit.

Kodak film in the yellow boxes are the best. Wainwright Pharmacy.

Mr. R. G. Dunsmore was a tripper to the city last week, and we understand disposed of his Edmonton property while there.

We understand that Mr. W. J. Reid and her daughter Josephine are planning to spend a short holiday at the west coast.

The Misses Kiehl, who have both been teaching in this district, left at the week end to spend the vacation with friends in B. C.

Mr. P. Dewar spent a few days on business in Edmonton last week.

We regret to hear that Mr. J. Russell Love, M. L. A., has suffered the loss of his grandmother. The deceased lady passed away in Toronto recently at the age of 77 years.

Wagon tongues, oak everters and oak stock at the Imperial Lbr. yard; phone 10.

After an absence of several weeks on business connected with his park duties Mr. A. G. Smith, superintendent of the Buffalo park, returned home from Ottawa last week.

Mrs. W. O. Blinn and her wee son are away on a visit to friends for a short stay.

Mrs. Bisson's is entertaining a guest for a holiday in the person of her mother who arrived last week end.

Mr. H. Herbert and family were Sunday visitors to friends at Heath.

Following their usual annual custom the girls of the C. G. I. T. class are spending a couple of weeks camping at Clear Lake. They left on Saturday.

Strong durable screen doors and Bapso pure paint at the Atlas Lumber Co. J. Welch.

After a pleasant time holidaying in eastern cities, Mr. and Mrs. W. W. Yeager returned home on Wednesday evening last.

The prize lists for the annual exhibition are now in the hands of the printer and will soon be issued.

We learn that little Miss Mary McIntee has been the best attendant at the Holmstead school at Greenshields for the term and of course she is duly proud of the fact.
